

Virtual Automotive Pathway Event

January 25th - February 12th

Register Now!!!

Virtual event designed to provide students with information about different Automotive Technology Programs within the Orange County Community Colleges as well as careers available within the automotive industry.

What To Expect:

- Overview of Automotive Technology certificate programs. Hear from graduates who have earned certificates & learn how to land a job.
- Demo & do it at home workshops
- Auto exhibits by dealership/group
- What does it take to make six-figures? Get advice from a veteran tech.
- Live session with industry, college & student representatives
